

Beginning June 5, 2017, United Community Centers, an agency guided by Christian principles who serve and empower those in need, will host 300 children for a 10-week Summer Education Enrichment Program. During the summer, children enjoy fun and safe activities such as arts and crafts, music and exciting field trips. This program is so much more than just a summer camp; students also benefit from United Community Centers' educational programs offered during the school year to minimize learning loss, and they are provided three hot meals each day.

Today we ask you to help us raise \$90,000 to provide a summer of enrichment, education and fun to a Fort Worth Child in need. For just \$320, you can sponsor a child and make an investment into their future.

Help us to make this summer a memorable one through your gift of a campership. Visit [UnitedCommunityCenters.org](http://UnitedCommunityCenters.org) for more information or to donate today.
